

North Gosforth Academy

Extra-Curricular Programme 2024 – 25

This programme shows you the range of activities in which you can take part at North Gosforth Academy.

We believe that participation in extracurricular activities is key to a well-rounded education. It fosters teamwork, resilience, commitment, strong relationships, and a willingness to engage beyond that which is mandatory. This is enormously enriching for students.

It is important for you that in addition to good examination results you are prepared to take up your place in society. This booklet details your opportunities to become involved in a variety of activities.

The activities are scheduled for lunchtimes and after school. The programme of activities is likely to evolve throughout the academic year so you will be given a new programme each term to update you with what is on offer!
